

ADDRESSABLE LEDs

Addressable LEDs come in many different shapes, sizes, and strip lengths, from individual surface mount LEDs to as many as 150 mounted on a 5-meter length.

Sample Addressable LEDs

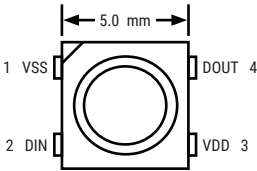

Available as single discrete LEDs, strips, modules, and rings.

	WS2812	SK6812	APA102
Adafruit Family	Neopixel	Neopixel	DotStar
Current Draw per LED	50 mA	40 mA	50 mA
Type	RGB	RGBW	RGB
PWM Based	Yes	Yes	Yes

Neopixel Example

4 pin = 5 mm x 5 mm (5050)

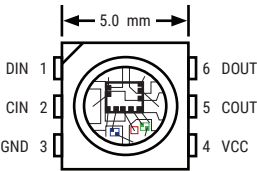

Example part numbers:
1830-1106-1-ND
1528-1104-ND

DotStar Example

6 pin = 5 mm x 5 mm (5050)

Example part numbers:
1830-1107-1-ND
1528-1800-ND

Strip Example

Example part number:
1528-1091-ND

Module Example

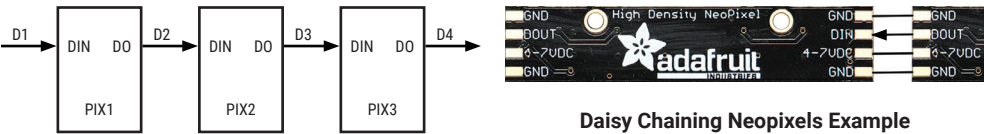

Example part number:
1528-1196-ND

Ring Example

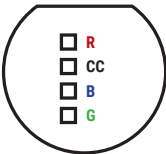

Example part number:
1528-1093-ND

Discrete addressable LEDs, strips, modules, and rings can easily be daisy chained for your specific needs.

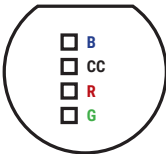

Daisy Chaining Neopixels Example

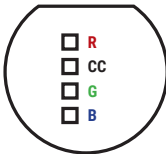

Common Cathode RGB LEDs*

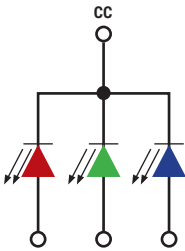

Part number:
754-1615-ND

Part number:
1830-1014-ND

Part number:
1568-1215-ND

R = Red | G = Green | B = Blue | CC = Common Cathode (Longest Lead)

*Common anode RGBs are available as well.
