

COMMUNITY-BASED BOARDS

SEED Studios Grove Beginner Kit – Arduino

All-in-one Arduino Uno-compatible board with 10 sensors and 12 projects.

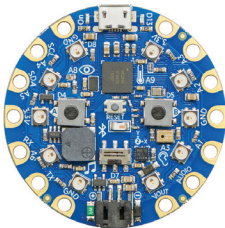

- Digi-Key Part Number: 1597-110061162-ND
- Uno R3
- Grove Connections –Keep it together or snap apart
- .96" OLDE display
- LED, buzzer, button, light, sound, air pressure, and more
- Easy Arduino setup

BBC Micro:Bit v2

The latest Micro:Bit allows programming in MakeCode, Arduino, Python, and JavaScript.

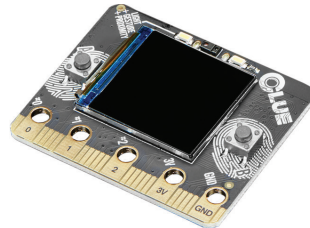

- Digi-Key Part Number: 2261-2012414-ND
- MEMs microphone with LED indicator
- Capacitive touch sensor (logo)
- 5x5 LED display, onboard speaker
- nRF52833 (64 MHz Cortex-M4F, 512 kB Flash, 128 kB RAM)

Adafruit Circuit Playground Bluefruit

The perfect introduction to electronics and programming.

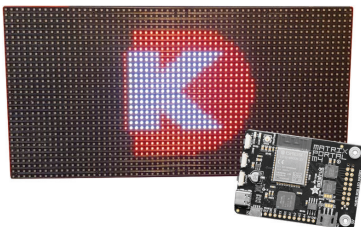

- Digi-Key Part Number: 1528-4333-ND
- nRF52840 Cortex-M4 with BLE support
- 10x Neopixels
- Sensors: Motion, temp, light, sound, speaker, buttons, and slide switch
- CircuitPython and Arduino support
- Alligator-clip friendly I/O pins

Adafruit Clue

Get a clue with this sensor-packed color display board.

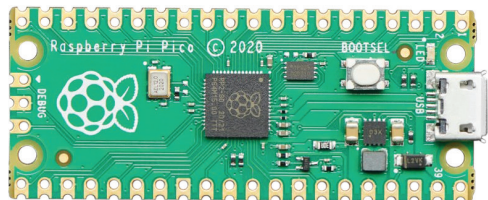

- Digi-Key Part Number: 1528-4500-ND
- nRF52840 Cortex-M4 with BLE support
- 1.3" 240x240 color IPS TFT display
- Built-in sensors, sensors, and more sensors
- CircuitPython and Arduino support
- Micro-bit form factor

Adafruit Circuit Matrix Portal

Convert your RGB matrix into an internet-connected display.

- Digi-Key Part Number: 1528-4745-ND
- ATSAMD51J19 Cortex-M4
- 512 kB flash, 192 kB RAM
- CircuitPython and Arduino support
- ESP32 Wi-Fi co-processor
- 2x10 socket connector for solderless connection

Raspberry Pi Pico

First of its kind featuring the RP2040 microcontroller with an dual-core ARM Cortex-M0+.

- Digi-Key Part Number: 2648-SC0915CT-ND
- RP2040 dual-core Arm Cortex-M0+
- 264KB internal RAM and support for up to 16 MB of off-chip Flash
- I2C, SPI, and – uniquely – Programmable I/O (PIO)

For more information, visit [DIGIKEY.COM/NOTEBOOK](https://www.digikey.com/notebook)

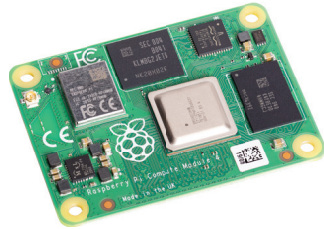

COMMUNITY-BASED BOARDS CONTINUED

Raspberry Pi 400

Raspberry Pi 4-based all-in-one keyboard and computer solution.

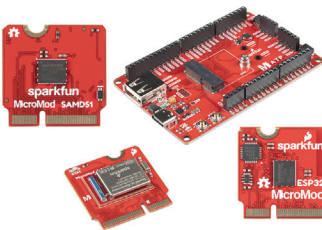

- Digi-Key Part Number: 2648-SC0373-ND
- Quad-core 64-bit processor
- 4 GB of RAM, Wi-Fi, Bluetooth, USB B & C, 4K HDMI
- 40-pin Raspberry Pi GPIO header
- Linux Debian OS

Raspberry Pi Compute Module 4

The power of the Raspberry Pi 4 in a compact form factor for deeply embedded applications.

- Digi-Key Part Number: 2648-SC0320-ND
- Quad-core ARM Cortex-A72 64-bit processor
- Dual video output
- Production-ready form factor with I/O boards for development
- Linux Debian OS

SparkFun Micromod

MCU card engines with consistent footprint across the family.

- Digi-Key Part Numbers: 1568-WRL-16781-ND (ESP32), 1568-DEV-16791-ND (SAMD51), 1568-DEV-16401-ND (ARTEMIS), 1568-DEV-16885-ND (ATP)
- ATP: all MCU pins, 1x USB Type C, 1x USB Type A Host, 2x Qwiic-enabled I2C, 1x CAN, 1x I2S, 2x SPI, 2x UARTs, 12 x GPIOs
- Dedicated Analog, PWM and Digital Pins

Arduino Opła IoT Starter Kit

The Opła IoT Kit allows you to add connectivity to devices around the home or workplace.

- Digi-Key Part Number: 1050-AKX00026-ND
- Arduino MKR Wi-Fi 1010
- Round OLED display
- Five capacitive touch buttons, 8 example IoT projects
- On-board sensors (temperature, humidity, pressure and light)

SEED Studios Wio Terminal

Highly integrated & easily expandable IoT Platform.

- Digi-Key Part Number: 1597-102991299-ND
- Microchip ATSAMD51P19 with ARM Cortex-M4F core running at 120 MHz
- Dual-band 2.4 GHz/5 GHz Wi-Fi, BLE 5.0, 2.4" LCD screen
- Compatible with 200 Grove modules and Raspberry Pi 40-pin GPIO
- Code with Arduino, CircuitPython, Micropython, ArduPy, AT Firmware, VS Code

M5Stack Core V2

Expandable ESP32-based MCU ecosystem

- Digi-Key Part Number: 2221-K010-ND
- ESP32-based, built-in Bluetooth, Wi-Fi
- 16 M Flash, 8 M PSRAM
- Built-in speaker, power indicator, vibration motor, RTC, I2S amplifier
- Capacitive touch screen, power button, reset button
