

SURFACE MOUNT PACKAGES

Imperial Code	Dimensions L x W (in)	Actual	Metric Code	Dimensions L x W (mm)
1005	0.016 x 0.0079	-	0402	0.4 x 0.2
0201	0.024 x 0.012	-	0603	0.6 x 0.3
0402	0.039 x 0.020	-	1005	1.0 x 0.5
0603	0.063 x 0.031	-	1608	1.6 x 0.8
0805	0.079 x 0.049	-	2012	2.0 x 1.25
1206	0.126 x 0.063	-	3216	3.2 x 1.6
1210	0.126 x 0.10	-	3225	3.2 x 2.5
1812	0.18 x 0.13	-	4532	4.5 x 3.2
2010	0.20 x 0.098	-	5025	5.0 x 2.5
2512	0.25 x 0.13	-	6432	6.4 x 3.2

Packages in North America are based off of Imperial (EIA) Code. Package decode: 0805 = .079" x .049"

THE DIGI-KEY 12" RULER

Part Number: PCB-RULER-ND

* Not to scale

Our aim was to create a reliable and accurate PCB layout reference tool. We've hit the nail on the head by calminating as much of the interesting PCB layout information as possible onto our Digi-Key Ruler. Shown below is just a sneek peek of the information included on our 12 inch ruler! For more information, search part number PCB-RULER-ND and click on the datasheet link.
